School of Nursing Tenure and Promotion Committee CSUDH (elected 2014)

International Hispanic Nurses Society

American Association of Occupational Health Nursing

National League for Nursing

AACN

Sigma Theta Tau International Society of Nursing

Research Committee, Intermountain Health Corporation, Salt Lake City

State, National and International Board Service

Editorial Board: *Gavin Journal of Nursing and Women's Health 2016*

Leadership Connection, San Bernardino County Board Member 2012 elected position

Governor Appointment: Veterans Affairs Utah State Board, March, 2010

Advisory Board Member: Veterans Facility Planning Facilities Board 2008-2009

Chair, June 2008-2010, state of Utah Organization of Nurse Leaders Academic Leadership Council
elected position

President, Sigma Theta Tau International, Nu Nu Chapter 2008-2010

Sigma Theta Tau International First Omada Board Leadership Development Mentoring Program
Jan.2004-Dec.2005: *International Network of Doctoral Education in Nursing; National Council of State Boards of Nursing*
Director, Southern and Western Michigan Association of Occupational Health Nurses, *Bylaws and Policies State Elected Appointment*2004-2006
Commission on Collegiate Nursing Education (CCNE)
Nominating Committee Member, National Elected Appointment 2004
Board Member, Visiting Nurse Service, Professional Advisory
Committee and Education Committee, Grand Rapids, Michigan 2000-2004

PRESENTATIONS:

10/27/2017 *The Global Epidemic of Malnutrition: The Role of Nursing, Legislation and the Media*
Sigma Theta Tau Odyssey Conference, Ontario, California pending

11/7/15 *Ecuador Nurses and Health Professionals Knowledge and Beliefs About HIV and the Use of Universal Precaution* Sigma Theta Tau International Biennial Convention, Las Vegas, Nevada accepted to present

4/15/2013 *Thai Nursing Students' Knowledge and Health Beliefs About AIDS and the Use of Universal Precautions* American Association of Occupational Health Nursing National Conference Las Vegas, Nevada

10/2009 Teaching and Learning Forum, Weber State University, *The Global Epidemic of Malnutrition: The Role of Legislation and the Media*

9/2009 Australian Nurse Educators Conference, "Education and Practice Working Together" "Passport Orientation" Christchurch, **New Zealand**

6/2009 *International Council of Nurses, Leading Change, Building Healthier Nations, " The Global Epidemic of Malnutrition: The Role of Legislation and the Media"* Durban, South Africa

6/2008 "International Nurse Migration, Present Trends and Challenges"
International Nursing Research Conference, Jerusalem, **Israel**

4/2008 Sigma Theta Tau Nu Nu Chapter "Health Professionals Knowledge and Health Beliefs about HIV in Quito, Ecuador, Ogden Regional Hospital

11/2007 Trinity College "Transforming Healthcare Through Research, Education, and Technology" Eighth Annual Interdisciplinary Research Conference. *Students Knowledge and Health Beliefs about HIV in Bangkok, Thailand* **Dublin, Ireland**

10/2007 Nursing Graduate Program Development, National Advisory Council, Weber State University

10/2007 Faculty Forum Weber State University Poster Presentation *"Health Professionals Knowledge and Health Beliefs about HIV in Quito, Ecuador, San Diego, California"*

10/2007 Association of Schools of Allied Health Professionals 2007 Annual Conference *"Health Professionals Knowledge and Health Beliefs about HIV in Quito, Ecuador, San Diego, California"*

8/2007 Utah State Nurse Educators Conference: *"Nursing Workforce Centers"* Cedar City, Utah

3/4/07 5th International Rural Nursing Congress, *"Emerging Infectious Diseases and Communities, Relevance to Rural Health"*, **Albury, Australia**

10/18/06 Association of Schools of Allied Health Professions *The Clinical Doctorate, Past, Present, Future* Chicago, Illinois.

10/6/06 Panel Moderator: Diversity Conference, Communicating with Physicians, cultural barriers, Weber State University

6/9/06 *Mentorship in Nursing* Intermountain Health Care Corporation, Murray, Utah

1/25/06 *Preparing BSN Students to Incorporate Prevention Strategies When Caring for Older Adults*. International Nursing Conference on Prevention and Management of Chronic Illness: International Perspectives, Co-sponsored By Mahidol University and UNC Chapel Hill. January 25-27 **Bangkok, Thailand**.

11/14/05 Sigma Theta Tau International Annual Conference Omada Board Mentee Presentation: International Doctoral Education in Nursing and, National Council of State Boards of Nursing, Indianapolis, Indiana.

10/28/05 Global Health: Adherence to HIV/TB Medications Global Conference WHO, Chicago, Illinois.

10/7/05 *The Effect of Disparities and Inequalities on Health*. The 7th Annual Diversity Conference, Examining Privilege and Power: Weber State University

5/10/04 TRECOS Fellow Presentation, Michigan State University
4th Annual National Institute of Health Review

11/20/03 Sixteenth Annual Conference Association of Nurses in AIDS Care: *Factors Which Affect Adherence to HAART Medications in HIV Positive Women*, New York City November 20-23

11/20/02 *Prevention of TB in HIV Infected People Along the United States-Mexico Border Who Have a Positive Tuberculin Test Result*, proposal, 6th Nursing Research Congress, European Priorities and Their Practical Impact, **Madrid, Spain**

4/2002 Qualitative Health Research Conference, **Banff, Alberta, Canada**, April 4-6 *Rural Nursing Students Attitudes Toward Caring for People With HIV/AIDS*

5/2000 **Chengdu, China**, *Predictors of Rural Nursing Students Willingness to Care for AIDS Patients*, paper presentation

HONORS:

Research Programs

Ongoing

Health Research & Services Administration (HRSA) Grant # 16D11HP29859BS of the U.S. Department of Health and Human Services (HHS). Grant amount: \$250,000. July 1, 2016-June 30, 2018.

Awarded to Chaminade University School of Nursing. Gwen Anderson PI.

Academic Practice Partnerships for a Hawaii State BSN Summer internship in Community Based Primary Care for Underserved Populations.

With a two year HRSA funded grant, Chaminade University of Honolulu, School of Nursing is in the process of partnering with the 14 federally funded community health centers on five Hawai'ian Islands to provide a summer internship for as many as 42 senior BSN students so they can develop primary care competencies necessary for a primary care role. To address challenges in recruiting RNs to primary care in isolated regions, we are working to create workforce opportunities in the communities where the students often already live. This workforce project will provide Hawaiian communities with a

significant leadership role for new BSNs. Indicators of success are measured using quantitative data: 1. students' scores on knowledge of social determinants of health, 2. desire to work in a primary care setting, 3. increased scores on senior level nursing course exams, 4. job applications and hires once the new graduates are ready for RN employment. Qualitative interviews (individual and focus group) are fostering partnerships and enhance the nursing course.

Completed

Dates: 04/2013-August 2015

Grant: Office of Nursing Services Strategic Initiative 2013. \$ 54,633

PI: Gwen Anderson, Co-Director VA Nursing Academy, San Diego Healthcare System. Adjunct Associate Professor San Diego State University School of Nursing. 2008-2013
Agency: Veterans Affairs Office of Nursing Services, Washington D.C.

Title: Genomic Nursing Competency Assessment: An Instrument Development Study.

The VA Office of Nursing Services has developed a series of five education modules to teach RNs about how genetics and genomics can be used to improve disease prevention, medical diagnosis and best treatment choices for Veterans. We are testing the online education modules and the post- test questions that will be used to assess whether the education modules are an effective way to incorporate this knowledge into practice. The online education and the evaluation questions will be available to all VA RNs for continuing education credits (CEUs).

The purpose of this study is to: 1) develop a psychometrically sound survey that measures genetic and genomic nursing competencies, including: attitudes, confidence in using skills (self-efficacy), and knowledge; 2) pilot test the online education module, "Genomics for Nursing Practice".

Dates: 08/23/2011-12/15/2015

Gwen Anderson, PhD, RN, VA Nursing Academy Co-Director, Adjunct Associate Professor San Diego State University School of Nursing. 2008-2013

Agency: Veteran Health Affairs, Office of Research and Development (ORD)

Title: The Million Veteran Program: A Partnership with Veterans (MVP)

This is a national cooperative study involving 50 VA medical centers across the USA. MVP is a voluntary VA research program funded by ORD which partners with Veterans receiving VA healthcare to study how genes affect health and illness. By collecting blood samples from Veteran volunteers, storing them in a biorepository, and linking the sample to the Electronic Health Record (EHR), MVP aims to create one of the largest databases

in the world of military exposure, environment, genetic, and health information. Over a period of five to seven years, the program hopes to enroll one million Veterans. Data collected through MVP may be used in a number of research studies on diseases that affect Veterans. The ultimate goal of MVP is to use research findings to improve healthcare for Veterans by customizing healthcare based on an individual's unique genetic makeup (personalized medicine).

Dates: 07/2007-6/2013

Grant Type: Nursing Education Innovation/ Academic Service Partnership for 5 years
PI and Service Co-Director: **Carole Hair**, RN, PhD Associate Chief of Nursing Education VA San Diego Healthcare System; **Gwen Anderson**, RN, PhD Academic Co-Director
Agency: (Veteran Health Administration Office of Academic Affairs and Office of Nursing Service)

Title: VA Nursing Academy: An Academic Service Partnership to Redesign Nursing Clinical Education

This program was created out of an academic service partnership aimed at improving clinical nursing education for students, new graduate nurses and RN preceptors and clinical nurses who transitioned in teaching roles in the service setting. The Co-Directors of the program oversaw 12 faculty members who taught over 300 nursing students in 16 clinical rotations per semester, a 12 month pre-BSN residency program for senior nursing students, a 12 month new graduate nurse residency program and a semi-annual preceptor training program at the beginner and advanced levels for new and experienced RNs. The faculty produced three peer reviewed manuscripts for publication, presented six posters, and four presentations. These VANA initiated quality improvement approaches to clinical nursing education have been adopted by RN staff, nursing leaders and hospital executives as organizational contributions worth sustaining. These programs have enhanced RN recruitment and retention rates and quality improvement data demonstrate greater satisfaction and eagerness to become an RN at VASDHS.

Dates: 12/2004-11/2006

Agency: Korean Research Foundation.

Title: Providing and Evaluating A New Clinical Program For Breast And Ovarian Cancer Genetic Counseling In (South) Korea

The major goal is to establish, deliver, and evaluate breast cancer genetic services in Korea for women and families with high risk for hereditary breast ovarian cancer syndromes. Three Korean researchers and Dr. Anderson created an international interdisciplinary collaboration to establish the first cancer genetic training and clinical service program in Seoul Korea for nursing students and faculty. Dr. Anderson taught in this new program in June 2006. Six graduates of the program are now working with Korean physicians to deliver genetic counseling services. Two English and one Korean paper have been published. Dr. June is now called upon to give lectures on genetic nursing in Korea.

Completed

Dates: 12/03-06/05

Grant Type; Grant # (KRF-2003-013-E00049) \$ 80,000.00

PI: Myung Hee Jun; Consultant & Sponsor of Postdoctoral Fellowship at San Diego State University; **Gwen Anderson**, PhD, RN

Agency: Korean Research Foundation.

Title: Exploring and Recommending a Culturally Appropriate Model of Delivering Cancer Genetic Services in (South) Korea

The major goal of this international research collaboration is to study who delivers cancer genetic risk assessment and counseling services in the USA. As a Postdoctoral Fellow, Dr. Jun took fieldnotes during observation of 177 genetic counseling sessions in three Southern California healthcare centers. The field notes were analyzed and combined with the literature review to understand models of service with a view to designing a model for a Korean context. In a final report to the research foundation Dr. Jun and Dr. Anderson made recommendations about quality assurance measures that need to be considered when designing new service programs for Korean health care centers. One English manuscript is still in preparation.

Completed

Dates: 8/2005-6/2009

PI: Gwen Anderson

Co-Investigators: Debra DeBruin, PhD, Ray De Vries, PhD.

Agency: National Institutes of Health, (National Heart Lung & Blood Institute)

Title: Looking into Common Daily Practices of Gene Therapy Clinical Research

This study aims to elucidate in great-detail the real world, taken-for-granted, day-to-day operations and decisions that bear on gene therapy clinical trials, and the necessary regulatory paper work. Nobody really knows the whole picture of how things happen, how the work gets done, who does what, how they interact, or how organizational systems, or health care policies affect the conduct of clinical research. One aim of this qualitative institutional ethnography study is to identify and describe common practices, systems, and tools that work as well as barriers that make the conduct of gene therapy challenging, complex, and perhaps prohibitive. Another aim is to describe different types of institutional research partnerships. Results of this study will ultimately draw attention to the need for education in all types of settings where gene therapy is conducted.

Completed

Date: 2004

Grant Type: University Grants Program \$ 5,000.00

PI: Gwen Anderson

Agency: San Diego State University, College of Health & Human Services

Title: National Survey of Study Coordinators of Gene therapy Clinical Trials

The major goal of this grant was to survey nurse and non-nurse study coordinators of gene therapy clinical trials to describe their characteristics and to identify factors that are related to role performance. Paper was accepted in Nursing Ethics in 2007.

Completed

Date: 2003

Grant Type: Dean's Research Award \$ 5,000.00

PI: Gwen Anderson

Agency: San Diego State University, College of Health & Human Services

Title: Phenomenological study of nurse study coordinators lived experience of being involved in gene therapy study coordinators.

The major goal of this study is to describe in great deal their perceptions of the organizational structure of clinical trials, their role, skills and ethical issues related to conduct of these highly specialized trials. Manuscript in preparation.

Completed

Dates: 12/1998-9/2000

PI: Gwen Anderson, RN, PhD

Agency: National Institutes of Health: Human Genome Research Institute

Title: Genetics in the Nursing Literature

The major goals of this project were to collate, synthesize and report the state of the science of genetic nursing knowledge published from 1906 to 1999, and to host a conference for nurse educators and journal editors at John Hopkins University School of Nursing in 1999. The goal was to promote publications in genetics and nursing to disseminate this knowledge in the profession.
